

UFO

Panoramic WiFi HD Camera

Overview

Armed with a full 1080p HD fisheye lens, superior night vision and accurate motion detection mechanisms, the smanos UFO brings clarity, immersive vision and ease of use to home monitoring, and can be ceiling or wall-mounted or placed on any flat surface. The 180-degree field of view ensures that you get to keep an eye on your loved ones or properties - with no blind spot, both at day or night - on your iPhone or Android phone anywhere at anytime. Futuristic in design, the smanos camera is compatible with any smanos WiFi alarm system. It delivers six types of full HD view, birds eye, panoramic, hemisphere, triple view, quad view, and two halves! You can easily zoom in & out digitally while also allowing you to store footage on-site or in the cloud. You can also engage in a two-way conversation with HiFi quality microphone & speaker.
